

Sample Meeting Record

DOCUMENT PURPOSE

This one-page PDF is a neutral fixture used to demonstrate TAHAI Press document-first publishing. It contains no private record, recipient-specific material, or migrated content.

A publisher can replace this file by uploading a PDF through Pages CMS or by placing a reviewed document in `public/uploads/documents/`. The generated article retains direct-open and download alternatives when the embedded browser viewer is unavailable.

STATIC PUBLISHING PROOF

- The PDF remains an ordinary file.
- Git preserves revision history.
- Cloudflare Pages serves the final static asset.
- No public application database is required.
